

SUZANA ARSLANI

I am a Croatia based photographer and videographer. I have a wide range of over 20 years of experience as a videographer working on different kinds of projects – from short films, documentaries and promotional videos to social media campaigns, interviews, sports, corporate videos and branded content. I produce high quality video content and impactful films for agencies, brands, publishers and charities. I started as an editor and camerawoman on local television and I crafted my knowledge in Paris shooting fashion shows for Fashion TV. When I came back to Croatia, I continued my career as an editor and camerawoman at national television in Zagreb. 3 years later I continued my journey as a freelancer and I earned recognition with my creative vision, dedication and technical expertise.

In 2012 I was a part of London Olympic games where I filmed Croatian sailing team.

Proficient in operating professional cameras, lighting and sound equipment, and editing software including Adobe Premiere Pro, Final Cut Pro, Adobe Photoshop and Lightroom, After effects, Sony cameras, Blackmagic cameras, DJI drones...

I bring enthusiasm, professionalism, creativity, and vast experience to every shoot, reliably providing my clients with the results that they need (and hopefully a few smiles along the way)

Video production is now essential for any business, brand or event and I'd be happy to create your next video content.
